Her pick: Elodie by Clarke & Clarke

What is your perfect purchase?

I love Elodie from the Folia collection by Clarke & Clarke for its charming patterns in various shades of pink.

Why does pink attract you?

This soothing colour is associated with love, spring, femininity and health. Because of its versatility, there's almost no hue with which it can't be paired. I would team it with a very subtle vapour blue and perhaps a dash of Caribou brown to make a space warm, cosy and sophisticated.

The house I grew up in was...

From a large modern home in Baroda and a lively apartment in Mumbai to a place in Hyderabad with Nizam chandeliers and Victorian fountains, I grew up in a variety of places!

My most treasured household object...

My grandmother's beautifully crafted jars from the 1940s.
